

# The Optometric Four Horsemen and Cavalry

Spring 2007

Dear Friends:

The Optometric Four Horsemen and Cavalry have a second bone to pick—the *Vision Specialist Report* for Illinois drivers.

We have over nine million licensed drivers in our state. The *Vision Specialist Report* is a wonderful opportunity to discuss the visual requirements for driving and gives your patient tangible information about the quality of their vision for driving.

***Please complete the Vision Specialist Report for all licensed drivers.***

The *Student Comprehensive Eye and Vision Examination Report* by Vision First Foundation is especially useful for students entering high school. Parents and teachers need to be informed if a child has met the requirements for Driver Education with or without correction.

***Please complete the Student Comprehensive Eye and Vision Examination Report for all students.***

If you need more information, including the many codes on driver licenses, please call the author of the *Vision Specialists Report*, Dr. Floyd Mizener, and he will work with you to build a greater understanding of the form.

Thank you for reading our letter.

Yours for better vision,

**The Optometric Four Horsemen and Cavalry**

**John Leon, O.D.  
Floyd Mizener, O.D.**

**Lawrence Vogel, O.D.  
Floyd Woods, O.D.**

**Willard Lyons, O.D.  
Elliot Politser, O.D.**

**Joseph Nolan, O.D.  
Sol Rocke, O.D.**

**Sol Tannebaum, O.D.**

**In loving memory of Irving Kernis, O.D.**

DISCLAIMER: The Optometric Four Horsemen, working as a team, is an unofficial and loosely organized group of optometrists with more time on their hands than one should have. We have a desire to provide guidance for the future of optometry. Most of us are fully retired and have no axe to grind except a passionate desire to remain active in our profession and to help others. We are self-funded with no financial support from the Illinois or American Optometric Associations or federal, state, or local government. We have no relationship with the Democrat, Republican, or Communist parties. We receive no sponsorship funds from any optical or drug manufacturer. No optical laboratory will even come close to us. In other words, we are free to express our ideas, thoughts, and critiques without fear. What a great feeling! You will be hearing more from us so stay tuned!
